Heart Surgeon Begs Americans: "Stop Putting This in Your Coffee"
Don't Do This >>>

(Natural News) Are you aware that blood, cells, and organ tissue from cows, eagles, dogs, ferrets, chickens, and yes, human abortions, are used to manufacture the world's most deadly vaccines? That's why they're called "dirty vaccines." Most natural health advocates already know about thimerosal, which is 50 percent mercury, that crosses the blood-brain barrier thanks to the inclusion of aluminum (linked to dementia), found in multi-dose flu shots. But it gets much, much worse. What most people are not aware of are the surprising ingredients that, if found in food or beverages, most folks would use common sense and judgment to *avoid* at all costs.

These scary ingredients and volatile substances are termed "excipients," "adjuvants" and "preservatives" by the vaccine industrial complex to keep the injected from having well-warranted concern and dismay.

No, vaccines are not "safe and effective," and they never were. That myth has surely been debunked, especially now with those dreaded clot shots for Covid. People like to talk about cigarettes being so dangerous and damaging for your health, but vaccines are even worse. Why are these dangerous ingredients used in vaccines, and what health damage in the short and long term do these "excipients" and "adjuvants" inflict?

Did you know that almost every childhood allergy is tied to vaccine ingredients? This requires careful consideration. No medical doctor ever points towards vaccines when addressing childhood allergies, asthma, skin problems like psoriasis and eczema, or severe, life-threatening allergic reactions to certain antibiotics (yes, antibiotics are found in some vaccines).

Even peanut oil antigen is STILL present in many vaccines, and has been used since the 1960s. Did the school nurse fail to inform you? Just because peanut oil fails to "show up" in the final vaccine product or the warning inserts, doesn't mean residuals are not found in the vaccine. Peanut oil is a "growth medium" used to grow the bacteria and viruses, like with the MMR jab and most flu shots. Got peanut allergies?

# 10 Most surprising and dangerous ingredients in vaccines, and the chronic health carnage inflicted by them

#1. **Monosodium Glutamate** – Found in vaccines for Adenovirus, certain flu shots, Vericella (chicken pox), and MMRV — used as a "preservative" and "stabilizer." MSG is a concentrated salt that can give infants brain damage, and becomes a neurotoxin when injected, even in miniscule amounts, because it bypasses digestion.

#2. **Human Serum Albumin** – supposedly used to "prevent immunogens from adhering to the injection vial walls."

#3. **Madin-Darby Canine Kidney** (a dog's cell protein) – in flu shots, to grow flu viruses instead of fertilized hen's eggs.

#4. **Human Abortion Cells** (MRC5) – unethical procedures are used to manufacture vaccines using cells derived from human fetuses aborted decades ago.

#5. **Dulbecco's Modified Eagle** (Medium) – used in the Rotavirus vaccine.

#6. **Squalene** – found in flu shots.

#7. **Embalming fluid** – formaldehyde is found in most flu shots and the Anthrax jab.

#8. **Polysorbate 80** – found in DTaP, Hep B, most flu shots, and HPV – used as surfactant to increase the solubility of one agent into another. Polysorbate 80 is derived from *sorbitol* using a chemical reaction, and can cause IBS because it metabolizes very slowly. Health concerns from consuming or injecting polysorbate 80 are linked to cancer (due to ethylene oxide and 1,4 dioxane), skin allergies, developmental toxicity, reproductive toxicity.

#9. **African Green Monkey Kidney** (vero cells) – harvested from infected, diseased primates – used in polio vaccines – used to propagate the virus over decades.

#10. **Deadly porcine pathogen Circovirus** – found in Rotateq Rotavirus jabs – Porcine circovirus DNA is a contaminant of an enzyme obtained from pig's pancreas. No explanation has ever been given as to why this highly dangerous contaminant is purposely put in rotavirus vaccines.

Where do you think the expression "dirty vaccines" comes from? Now you know. Bookmark Vaccines.news to your favorite independent websites for updates on dangerous ingredients STILL being purposely put into vaccines today.

died on the table because the x-ray machine used to image the vessels failed during the surgery. They don't know why it did. There are only two plausible scenarios: either the electromagnetism injected in the victim interfered with the transmission or they found "clots" and shut it down before anyone not a doctor could register what was happening.
My money is on the second scenario.

**Yes I said it.** • 6 hours ago

I absolutely agree with this. I have bad reactions to almost all pharma drugs. The docs can't believe I can only tolerate pure Butesonide from a nebulizer and that the powder discs and aerosols make my very mild asthma worse. Just think, they prescribe an inhaled powder, Advair Discus, to treat already inflamed lungs. My belief is that it is the "inactive" ingredients in all these concoctions that cause a lot of the problems. The hysteria over occasional prednisone use which is cheap and has a minimum of inert ingredients, is a good indication. Doctors have no problem prescribing insulin or synthetic Thyroid yet go nuts over synthetic ACTH (prednisone) which was developed because of how difficult it is to harvest naturally but yet has saved lives.
I don't even use the butesonide regularly, only if I am clearly not oxygenating well enough. I have not found a natural or homeopathic remedy that will stop an active attack although I do see that certain things I'm using have reduced my need for the inhaler both in quantity and severity of attack.

Remember that $nake on a $tick that beguiled the hysterical(see etymology) woman in the garden of Eden?

> All vaccines use the hypodermic needle developed from that viper's mouth to deliver their venom.

Modern medicine is a religion, symbolized by the depiction of that old $erpent on a $tick from Eden's VICTORY over man...
That $nake & $taff is just as much a religious symbol as a cross on a church, a crescent moon on a mosque, or a pentacle in a witches coven.

> Attempt to prove me wrong.

**crabby** • 6 hours ago

dropped the ball on this one.. the most deadly is Thimerosal the ' mer ' is mercury.. it's in all vaxxes.. used as a preservative ..

another WTF ingredient found in many vaxxes ,, is HELA .. derived from cervical cancer cells taken from Henrietta Lacks an african-american woman aged 31 , 2/8/51.. the cancer cell is very durable and prolific .. they wont die.. almost alien .. an never found since..

they just had to incorporate this into the vaccines..

**Russell White** • 9 hours ago

It amazes me that it takes "educated doctors" over 2 years to come forth and claim that the vaxes aren't what they seem...
Yet, me and many other conspiracy theorists" have been screaming this sh$t from the minute this farce was forced upon the public.
I kind of like this idea of a depopulation program. At least we can rid the planet of a certain % of the idiots..

1 ^ | v • Reply • Share ›

**spidy** ↗ Russell White • 7 hours ago • edited

You got that right, and the lemmings keep lining up for the next round of poison. I know people that got a heart condition after the first two shots and then they still got the booster. It's literally natural selection survival of the fittest critical thinkers . Meatbots, your goobermint doesn't give a Farq about you! They don't care!

Stay away from vaccines.....ALL OF THEM!!!

"The medical authorities keep lying. Vaccination has been an assault on the immune system. It actually causes a lot of illnesses. We are actually changing our genetic code through vaccination.....100 years from now we will know that the biggest crime against humanity was vaccines."

-Dr Guylaine Lanctor author of "The Medical Mafia"

"Much of what you have been led to believe about immunization simply isn't true. If I were to follow my deeper convictions, I would urge you to reject all inoculations for your child....There in convincing scientific evidence that mass inoculations can be credited with eliminating any childhood disease"

-Dr Robert Mendelsohn author of "Confessions of a Medical Heretic"

"These chronic diseases, including hay fever, asthma, cancer, and AIDS, are the result of wrong interventions upon the organism by conventional medicine.....the immune systems of the Western population, through strong chemical drugs and repeated vaccinations, have broken down.....medicine, instead of curing diseases, is actually the cause of the degeneration of the human race"

-Dr Juan Manuel Martinez Mendez writing in the Aug/Sept 2004 Townsend Letter
